

Gift of the Year Award Shortlisted – These landscape cards are designed to be displayed in “portrait” orientation to save space. This is possible due to stickers on the cello bags, which display the card’s design clearly to customers, without the need to pick up or turn the card. They are also the same height as a standard 7x5” greeting card so as to fit neatly in the rows with your other ranges.

Card size: 18 x 8.5 cm
